## Description

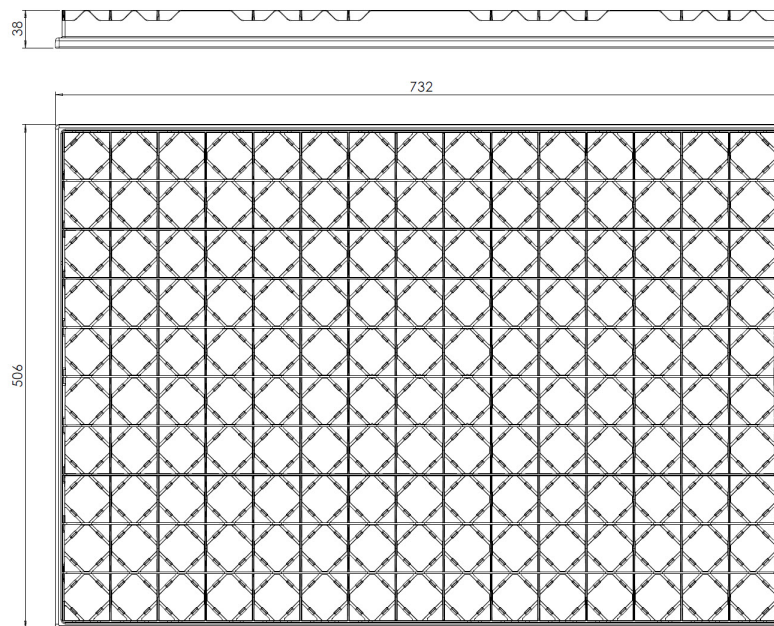

The B00568 is Petersime's standard setter tray for chicken eggs, designed for use with Petersime BioStreamer™, AirStreamerPlus™ and Conventional setters.

The tray has 150 egg places arranged in a 10 x 15 matrix. The special shape of the tray ensures an adequate air flow around the entire surface of the egg shell. The egg supports

are designed for ideal positioning of both small and large eggs.

The tray is made of polypropylene and painted black to ensure minimum reflection of light, which enables efficient candling. The tray is designed for intensive handling and for cleaning by industrial washing machines.
