Description

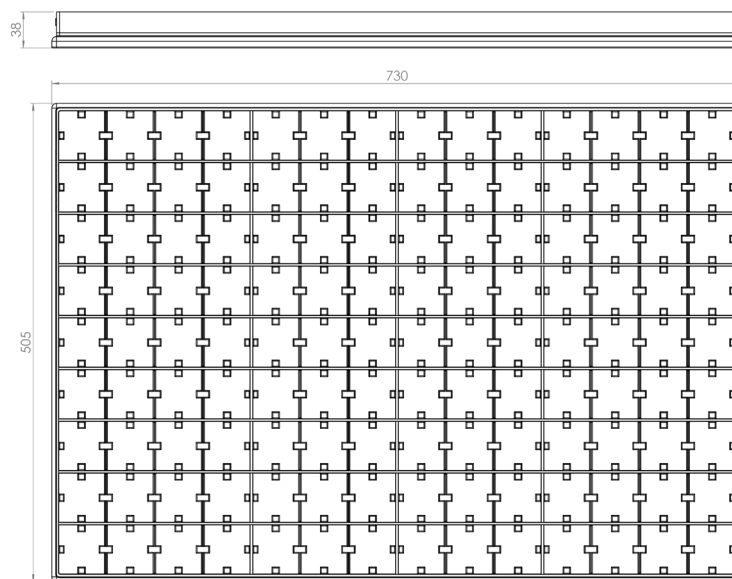

The B06120 is Petersime's standard setter tray for turkey and duck eggs, designed for use with Petersime BioStreamer™, AirStreamerPlus™ and Conventional setters.

The tray has 126 egg places arranged in a 9 x 14 matrix. The special shape of the tray ensures an adequate air flow

around the entire surface of the egg shell.

The tray is made of polypropylene and is painted black to ensure minimum reflection of light, which enables efficient candling. The tray is designed for intensive handling and for cleaning by industrial washing machines.
