Description

The HW067485 is Petersime's hatcher trolley designed for use with the BioStreamer™ HD hatchers. It has a recommended capacity of two stacks of 16 chicken baskets B03952 or four stacks of 16 universal chick baskets B14047, which allows the loaded trolley to pass under a standard doorway.

The trolley is welded solidly and has an extra coating that protects it from corrosion. It is mounted on four large wheels, two of which are swivel wheels, with low roll resistance for easy maneuvering.

The HW067485 is suitable for industrial washing systems.

Specifications

Capacity

- ▶ 5,376 hatching chicken eggs (32 chicken baskets B03952 of 168 eggs or 64 universal chick baskets B14047 of 84 eggs each)

Dimensions

Length	1610 mm
