Description

The HW058013 is Petersime's trolley for the BioStreamer™ 4TH and H13 hatchers. It has a recommended capacity of two stacks of 14 baskets, which allows the loaded trolley to pass under a standard doorway.

The trolley is welded solidly and has an extra coating that protects it from corrosion. This makes it perfectly suited for frequent on-farm traying and transportation from farm to hatchery.

The trolley is mounted on four large wheels with low roll resistance, two of which are swivel wheels, for easy maneuvering.

The HW058013 is suitable for industrial washing systems.

Specifications

Capacity

- ▶ 3,528 hatching eggs (2 x 14 baskets of 126 eggs)
- ▶ 3,360 hatching eggs (2 x 14 baskets of 120 eggs (60XL setter trays))

Dimensions

Length	1,250 mm
Width	808 mm
Height	195 mm

Material

- ▶ Welded steel frame with corrosion protective black colour coating
