## Description

The HW067529 is Petersime's standard farm trolley for chicken eggs. It has two adjacent rows which each hold 20 Petersime standard setter trays, adding up to a capacity of 6,000 eggs, or 40 Petersime HD setter trays for a capacity of 6,720 eggs. An interlocking mechanism prevents the trays from falling out during transportation.

The trolley is designed for frequent, rough handling and is easy to clean. It has a solidly welded construction with an extra coating for protection against corrosion.

Handling the trolley has never been easier: it has an ergonomic design and is mounted on four large, low roll resistance wheels, two of which are swivel wheels with brakes. The trolley's dimensions allow it to pass under a standard doorway.

## Specifications

### Capacity

- ▶ 6,000 chicken eggs on 40 standard setter trays of 150 eggs each
- ▶ 6,720 chicken eggs on 80 HD setter trays of 84 eggs (stockable or non-stockable HD tray)

### Dimensions

Length	1,087 mm
Width	761 mm
Height	1,947 mm

### Material

- ▶ Welded steel frame with corrosion protective black colour coating
